6- Click Next

The screenshot shows the 'Site Wizard' window with the 'Login Option Selection' step. The title bar reads 'Site Wizard' and 'Login Option Selection'. Below the title bar, there is a subtitle 'Select your login sequence choice from the options set by your administrator'. The main content area contains the instruction 'Please select your preferred login option from the following list' and a dropdown menu with 'Standard (Default)' selected. At the bottom, there are four buttons: 'Back', 'Next', 'Cancel', and 'Help'. A purple arrow points to the 'Next' button.

7- Select Username and Password and click Next

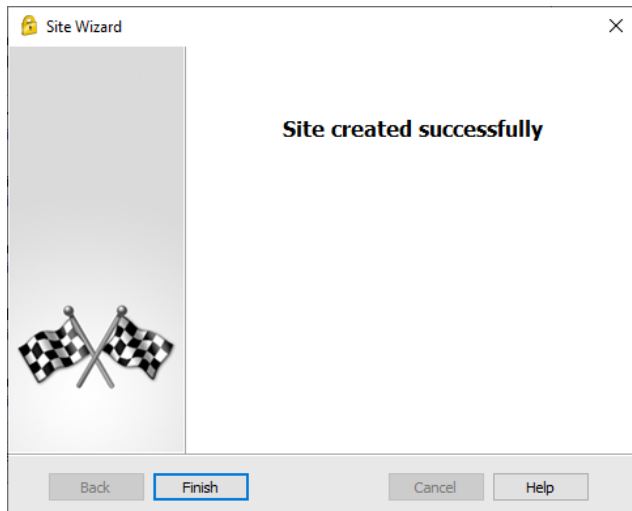

The screenshot shows the 'Site Wizard' window with the 'Authentication Method' step. The title bar reads 'Site Wizard' and 'Authentication Method'. Below the title bar, there is a subtitle 'Select the authentication method to be used.'. The main content area contains five radio button options: 'Username and Password' (selected), 'Certificate', 'SecurID', 'Challenge Response', and 'Secure Authentication API (SAA)'. Each option has a brief description. At the bottom, there are four buttons: 'Back', 'Next', 'Cancel', and 'Help'. A purple arrow points to the 'Next' button.
